PAYMENT TERMS:	DOCUMENTS FOR PAYMENTS:
-	Bill of Lading Copy, Commercial Invoice

TERMS AND CONDITIONS:

- Product Quality & Maturity Requirements Supplier shall ensure that all supplied products are of export quality, meeting the appropriate maturity, freshness, and visual standards: + King Coconut: Harvested at optimal drinking maturity (typically 7–9 months),

with full nut, bright orange skin, and clear, sweet water. Coconuts must be clean, undamaged, free from sprouting, fermentation, off-odor, or mold. Under-mature, over-aged, cracked, or low-water nuts are strictly prohibited. + Red & Green Papaya: Harvested at the proper ripeness stage (Breaker or Green-Mature), firm, latex-free, and free from bruises, soft spots, or decay. + Tapioca: Fully matured, freshly harvested roots with no signs of softness, hollowness, pest damage, or internal rot. Sprouted or discolored roots are not acceptable." 2. Packaging & Carton/Bag Specifications All carton designs and artwork will be provided by the Supplier and must be consistent across the shipment. + King Coconut: Packed 6 pieces per printed carton box. Cartons must be clean, strong, moisture-resistant, and suitable for export handling. + Red Papaya & Tapioca: To be packed in ventilated cartons, depending on shipment plan and handling requirements. All packaging must prevent bruising and support product ventilation during transit. + Green Papaya: Packed in mesh/HDPE bags of suitable to withstand the weight. Bags must be clean, dry, breathable, and securely stitched. 3. Pre-Shipment Inspection & Cooperation Buyer reserves the right to conduct or assign a pre-shipment inspection at the packing facility. This may include sampling for water content, brix testing (for King Coconut), weight checks, ripeness stage grading, and visual inspections. Full cooperation from the Supplier is mandatory for all such quality checks. 4. Quality Rejection & Penalty Clause If more than 2% of the delivered goods are found to be non-compliant due to immaturity, over-ripeness, spoilage, bruising, fungus, cracks, or under-filled King Coconuts, the Buyer reserves the right to reject the shipment partially or entirely. Price deductions or returns will be made at the Supplier's cost. 5. Responsibility for Spoilage or Quality Failures The Supplier bears full responsibility for any damage or spoilage resulting from: + Incorrect harvesting stage + Poor post-harvest handling or seasoning + Inadequate packaging, ventilation, or moisture control + Failure to use approved carton designs for King Coconuts + Improper stacking or loading practices: All quality losses traceable to Supplier-side fault will be subject to recovery or deduction. 6. Arrival & Joint Quality Verification Upon container arrival at the discharge port, the cargo shall be opened in the presence of the Seller's designated local representative. A joint inspection will be conducted to verify the internal and external condition of the products. Inspection findings will serve as the official basis for any quality-related claims or disputes.
